Teaching with Primary Sources - Annotated Resource Set

			Content Objectives	Thinking Objectives	Suggested Assessment Strategies	
5-12	History	2 and 3	Utilize geographic Skills: Apply map and globe skills to the study of US History	Students will evaluate maps and resources available to explorers.	Students will complete a map/document/picture evaluation sheets as they are evaluating all primary source documents.	
	Technology	4	Students will understand the changes caused by European exploration in the Americas.	Students will apply geographic/map skills gained in creating their own maps.	Evaluating the maps available to explorers, students will formulate the necessary components to a map (this can be done by what is on the map, and what is missing- often titles are missing). Students will then put together their own map (can replicate time period map) demonstrating knowledge of location and map skills.	
	Reading & Writing	2 and 3	Use content-specific tools, software and simulations to support learning and research. Why is it hard for a mother country to control what happens in the colony? What other problems besides abuse can/will arise because of the lack of control? (pirates) Can we compare this to anything that we see today?</p>
